### **4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:**

The Call Redemption Amount of the Note issued at par, is linked to the performance of the underlying basket of stocks.

If the weighted average performance of the underlying basket is positive, the Notes will redeem at a price above par, else the Notes will redeem at par.

The market value of the Notes during their term may fluctuate and if the Notes are sold in the secondary market prior to maturity they might have to be sold at a substantial loss. Investors should therefore be willing to hold the Notes to maturity. Investors cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently, or that the price of the Notes would reflect a theoretical or fair price.

If the Issuer is obliged to redeem the Notes early, due to change in Tax or Legal aspects prohibiting the Notes, or in the event of the Issuer defaulting on its debt, the Notes may be redeemed in accordance with the Conditions at their Early Redemption Amount (see item 25 of the Final Terms). If the Notes are redeemed early, there might be redeemed at a substantial loss. There is a risk that an investor may lose some or all of the value of its investment. Thus the partial principal protection does not apply, if the Notes are redeemed early.

Finally the redemption payment of the Note is dependent upon the Issuer being able to meet its obligation on the Maturity Date. If the Issuer is not able to meet its obligation, investor may lose part of or all of the invested amount.

| <b>D.2</b>     | <b>Key risks specific to the Issuer</b> | In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of |

|            |   |   |
|------------|---|---|
|            |   | <p>the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>• the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, insurance risk and pension risk;</li> <li>• regulatory changes could materially affect the Issuer's business;</li> <li>• the Issuer will face increased capital and liquidity requirements as a result of the new Basel III framework;</li> <li>• the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds;</li> <li>• the Group may be affected by general economic and geopolitical conditions; and</li> <li>• the impact of European implementation of the Basel III framework.</li> </ul>  |
| <b>D.6</b> | <b>Key information on key risks specific to the Notes</b> | <p><i>The Issuer believes that the factors summarised below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.</i></p>   |
|            |   | <p>Notes involve a high degree of risk. There are certain factors which are material for the purpose of assessing the market risks and general risks associated with investing in the Notes, which include, without limitation, the following: the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a suitable investment for all investors, because the VP Systems Notes are dematerialised securities, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer, taxes and expenses may be payable by holders in connection with the Notes, there may be withholding under the EU Savings Directive, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.</p> <p>In addition, there are certain factors which are material for the purpose of</p> |

|  |  |   |
|--|--|---|
|  |  | <p>assessing the risks relating to the structure of the Notes, which include, without limitation, the following: if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes.</p> <p>There are certain additional risks associated with Notes linked to the Reference Items: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Items to which the value of, or payments in respect of, the Notes relate. Fluctuations in the value and/or volatility of the Reference Items may affect the value of the Notes. Investors may risk losing their entire investment if the value of the Reference Items does not move in the anticipated direction. Investors will have no claim against any Reference Item. Market disruptions or other adjustment events may occur in respect of the Reference Items which may result in valuations and/or payments being delayed, the Notes may be subject to adjustment (including, without limitation, that the relevant Reference Item may be substituted) or the Notes may be redeemed early. In addition, hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes</p> <p>The Notes will represent an investment linked to the performance of the Reference Items and prospective investors should note that the return (if any) on their investment in the Notes will depend upon the performance of the Reference Items.</p> |
|  |  | <p><b>THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY ACCRUED INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO. INVESTORS MAY LOSE THE VALUE OF THEIR ENTIRE INVESTMENT, OR PART OF IT, AS THE CASE MAY BE.</b></p>  |

| <b>E.3</b> | <b>Terms and conditions of the offer</b>                                      | <p>This issue of Notes is being offered in a Non-Exempt Offer in Sweden.</p> <p>The issue price of the Notes is 100 per cent. of their principal amount.</p> <p>An Investor intending to acquire or acquiring any Notes in a Non-exempt Offer from an Authorised Offeror will do so, and offers and sales of such Notes to an Investor by such Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocations and settlement arrangements.</p> |
| <b>E.4</b> | <b>Interests material to the issue/offer, including conflicting interests</b> | <p>Not Applicable – So far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.</p>   |
| <b>E.7</b> | <b>Expenses charged to the investor</b>                                       | <p>No expenses are being charged to an investor by the Issuer.</p>   |

### AVSNITT A - SAMMANFATTNING

Det är inte möjligt att identifiera all sådana faktorer eller att fastställa vilka faktorer som är mest troliga att inträffa, eftersom Emittenten kan vara omedveten om alla relevanta faktorer och vissa faktorer som Emittenten för närvarande bedömer som inte väsentliga, kan bli väsentliga på grund av inträffandet av händelser som ligger utom Emittentens kontroll. Emittenten har i detta Grundprospekt identifierat ett antal faktorer som kan väsentligt negativt påverka dess verksamhet och förmåga att erlagga betalning avseende Obligationerna. Dessa faktorer inkluderar:</p> <ul style="list-style-type: none"> <li>• Koncernen är exponerad mot ett antal risker, vilka kan kategoriseras som kreditrisk, marknadsrisk, likviditetsrisk, operationell risk, försäkringsrisk och pensionsrisk;</li> <li>• Näringsrättsliga förändringar kan väsentligt påverka Emittentens verksamhet;</li> <li>• Emittenten kommer att möta ökade kapital- och likviditetskrav som en följd av det nya Basel III-ramverket;</li> <li>• Koncernen kan bli tvungen att betala ytterligare belopp insättningsgarantiplaner och liknande fonder;</li> <li>• Koncernen kan påverkas av allmänna ekonomiska och geopolitiska förhållanden, vilket kan resultera i uteblivna vinster eller ökade förluster inom Koncernens verksamhet; och</li> <li>• Effekterna av den europeiska implementeringen av Basel III-ramverket.</li> </ul> |
