4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Call Redemption Amount of the Note issued at 10 % above par, is linked to the performance of the underlying basket of stocks.

The performance is determined as the weighted average performance of the underlying stocks, (including the 13 monthly fixings at the end of the maturity) multiplied with the Participation Rate (to be determined on the Trade Date and subject to a minimum of **100 %**).

If the weighted average performance of the basket (including the 13 monthly fixings at the end of the maturity), is positive, the Notes will redeem at a price above par.

If the weighted average performance (including the 13 monthly fixings at the end of the maturity), is negative, the Notes will redeem at par.

The market value of the Notes during their term may fluctuate and if the Notes are sold in the secondary market prior to maturity they might have to be sold at a substantial loss. Investors should therefore be willing to hold the Notes to maturity. Investors cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently, or that the price of the Notes would reflect a theoretical or fair price.

If the Issuer is obliged to redeem the Notes early, due to change in Tax or Legal aspects prohibiting the Notes, or in the event of the Issuer defaulting on its debt, the Notes may be redeemed in accordance with the Conditions at their Early Redemption Amount (see item 32 of the Final Terms). If the Notes are redeemed early, there might be redeemed at a substantial loss. There is a risk that an investor may lose some or all of the value of its investment. Thus the partial principal protection does not apply, if the Notes are redeemed early.

Finally the redemption payment of the Note is dependent upon the Issuer being able to meet its obligation on the Maturity Date. If the Issuer is not able to meet its obligation, investor may lose part of or all of the invested amount.

Section D– Risks

Element	Title	
D.2	Key risks specific to the Issuer	<p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer’s control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> • the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, insurance

		<p>risk and pension risk;</p> <ul style="list-style-type: none"> • regulatory changes could materially affect the Issuer’s business; • the Issuer will face increased capital and liquidity requirements as a result of the new framework implementing, among other things, the Basel Committee on Banking Supervision’s proposals imposing stricter capital and liquidity requirements upon banks in the EU; • the implementation of a bank recovery and resolution directive or the taking any action under it could materially affect the value of any Notes; • the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds; and • the Group may be affected by general economic and geopolitical conditions.
--	--	--

D.6	Key information on key risks specific to the Notes	<p><i>The Issuer believes that the factors summarised below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.</i></p>
		<p>Notes may involve a high degree of risk. There are certain factors which are material for the purpose of assessing the market risks associated with investing in the Notes, which include, without limitation, the following: an active secondary market in respect of the Notes may never be established or may illiquid and this would adversely affect the value at which an investor could sell its Notes, if an investor holds Notes which are not denominated in the investor’s home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding and the imposition of exchange controls could result in an investor not receiving payment on those Notes, the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a suitable investment for all investors, taxes and expenses may be payable by holders in connection with the Notes, there may be withholding under the EU Savings Directive, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes, the proposed financial transactions tax may apply in respect of certain dealings in Notes, the Terms and</p>

		<p>Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.</p>
		<p>In addition, there are certain factors which are material for the purpose of assessing the risks relating to the structure of the Notes, which include, without limitation, the following: if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes.</p>
		<p>There are certain additional risks associated with Notes linked to the Reference Items: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Items to which the value of, or payments in respect of, the Notes relate. Fluctuations in the value and/or volatility of the Reference Items may affect the value of the Notes. Investors may risk losing their entire investment. Investors will have no claim against any Reference Item. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. Market disruptions or other adjustment events may occur in respect of the Reference Items which may result in valuations and/or payments being delayed, the Notes may be subject to adjustment (including, without limitation, that the relevant Reference Item may be substituted) or the Notes may be redeemed early.</p> <p>The Notes will represent an investment linked to the performance of the Reference Items and prospective investors should note that the return (if any) on their investment in the Notes will depend upon the performance of the Reference Items.</p>
D.6	Risk Warning	<p>THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO. INVESTORS MAY LOSE THE VALUE OF THEIR ENTIRE INVESTMENT, OR PART OF IT, AS THE CASE MAY BE.</p>

Avsnitt D – Risker

Punkt	Rubrik	
D.2	Huvudsakliga risker förknippade med Emittenten	Vid köp av Obligationer ikläder sig investerare risken förknippad med att Emittenten kan bli insolvent eller av annan anledning oförmögen att göra alla betalning som förfaller under Obligationerna. Det finns ett brett spektrum av faktorer som, var för sig eller tillsammans, kan resultera i att Emittenten inte kan fullgöra sina betalningsförpliktelser under Obligationerna. Det är inte möjligt att identifiera all sådana faktorer eller att fastställa vilka faktorer som är mest troliga att inträffa, eftersom Emittenten kan vara omedveten om alla relevanta faktorer och vissa

		<p>faktorer som Emittenten för närvarande bedömer som inte väsentliga, kan bli väsentliga på grund av inträffandet av händelser som ligger utom Emittentens kontroll. Emittenten har i detta Grundprospekt identifierat ett antal faktorer som kan väsentligt negativt påverka dess verksamhet och förmåga att erlägga betalning avseende Obligationerna. Dessa faktorer inkluderar:</p> <ul style="list-style-type: none"> • Koncernen är exponerad mot ett antal risker, vilka kan kategoriseras som kreditrisk, marknadsrisk, likviditetsrisk, operationell risk, försäkringsrisk och pensionsrisk; • Näringsrättsliga förändringar kan väsentligt påverka Emittentens verksamhet; • Emittenten kommer att möta ökade kapital- och likviditetskrav som en följd av det nya regelverket som implementerar, bland annat, Baselkommittén för Banktillsyns förslag som inför hårdare kapital- och likviditetskrav för banker i EU; • Implementeringen av direktiv om inrättande av en ram för återhämtning och resolution av kreditinstitut och värdepappersföretag eller åtgärder vidtagna enligt detta direktiv kan betydande påverka värdet på Obligationerna; • Koncernen kan bli tvungen att betala ytterligare belopp insättningsgarantiplaner och liknande fonder; och • Koncernen kan påverkas av allmänna ekonomiska och geopolitiska förhållanden, vilket kan resultera i uteblivna vinster eller ökade förluster inom Koncernens verksamhet.
D.6	Nyckelinformation om huvudsakliga risker förknippade med Obligationerna	<p><i>Emittenten anser att faktorerna sammanfattade nedan representerar de huvudsakliga riskerna förknippade med att investera i Obligationerna, men Emittenten kan vara oförmögen att erlägga belopp avseende Obligationerna av andra skäl som inte behöver anses vara väsentliga av Emittenten på basis av den information som Emittenten för närvarande har tillgänglig eller som den för närvarande inte kan förutse.</i></p>
		<p>Obligationerna kan vara förknippade med en hög grad av risk. Det finns vissa faktorer som är väsentliga för att kunna bedöma marknadsriskerna förknippade med att investera i Obligationerna, vilka inkluderar, utan begränsning, det följande: en aktiv andrahandsmarknad avseende Obligationerna kan komma att inte uppstå eller så kan den vara illikvid och detta kan ha en negativ påverkan på värdet för vilket en investerare kan sälja sina Obligationer, om en investerare innehar Obligationer som inte är denominerade i valutan för investerarens hemland så kommer exponering ske mot förändringar i valutakurserna som negativt kan påverka värdet av innehavet och införandet av valutakontroller kan resultera i att en investerare inte får betalt för sina Obligationer, att marknadsvärdet för Obligationerna kommer att påverkas av ett antal faktorer oberoende av Emittentens kreditvärdighet, kreditvärdighetsbetyg tilldelade Emittenten</p>

	<p>kanske inte återspeglar alla risker förknippade med en investering i Obligationerna, Obligationerna kanske inte är en lämplig investering för alla investerare, att skatter och avgifter kan komma att behöva betalas av investerare avseende Obligationerna, att det kan förekomma innehållande av källskatt enligt EU:s Sparanddirektiv, innehållande av källskatt enligt amerikansk lagstiftning (U.S. Foreign Account Tax Compliance Act) kan påverka betalningar avseende Obligationerna, innehållande under lagstiftningen om incitament för anställning (Hiring Incentives to Restore Employment Act) kan påverka betalningar för Obligationerna, de föreslagna finansiella transaktionerna kan tillämpas avseende viss handel med Obligationerna, att Villkoren för Obligationerna innehåller bestämmelser som tillåter att detta modifieras utan samtycke av samtliga investerare, att värdet av Obligationer kan påverkas negativt av en förändring i tillämplig rätt eller administrativ praxis, att Emittenten har emitterat säkerställda obligationer och om några relevanta anspråk avseende dessa säkerställda obligationer inte kan mötas ur tillgångsmassan eller likvider resulterande från denna, kommer varje återstående krav att därefter rangordnas lika med Emittentens förpliktelser under Obligationerna.</p> <p>Dessutom, det finns vissa faktorer som är väsentliga när det gäller bedömningen av riskerna avseende strukturen för Obligationerna, vilka inkluderar, bland annat, det följande: om fullgörandet av Emittentens förpliktelser under Obligationerna, blir olagligt, kan Emittenten lösa in Obligationerna.</p> <p>Det finns vissa ytterligare risker förknippade med Obligationer relaterade till Referensfaktorerna: Potentiella investerare i Obligationerna ska vidare vara införstådda med att riskerna med transaktioner som involverar Obligationerna och bör endast fatta ett investeringsbeslut efter noggrant övervägande, tillsammans med sina rådgivare, av lämpligheten av Obligationerna i ljuset av investerarens egna omständigheter, informationen i Grundprospektet och informationen om Referensfaktorerna till vilka värdet för, eller betalningarna avseende Obligationerna är relaterade. Förändringar i värdet och/eller volatiliteten för Referensfaktorerna kan påverka Obligationernas värde. Investerare riskerar att förlora hela sin investering. Investerare kommer inte att ha några anspråk gentemot någon Referensfaktor. Emittentens hedgningsarrangemang kan påverka Obligationernas värde och det kan förekomma intressekonflikter avseende Obligationerna. Marknadsavbrott eller andra justeringshändelser kan inträffa avseende Referensfaktorerna vilket kan resultera i att värderingar och/eller betalningar senareläggs, Obligationerna akan bli föremål för justering (inklusive, utan begränsning till, att den relevanta Referensfaktorn kan bytas ut) eller att Obligationerna löses in i förtid.</p> <p>Obligationerna representerar en investering relaterad till utvecklingen för Referensfaktorerna och potentiella investerare bör notera att avkastningen (om någon) på deras investering i Obligationerna kommer att bero på</p>

		utvecklingen för Referensfaktorerna.
D.6	Riskvarning	BELOPPET SOM ERLÄGGS VID INLÖSEN AV OBLIGATIONERNA KAN VARA LÄGRE ÄN KAPITALBELOPPET FÖR OBLIGATIONERNA, TILLSAMMANS MED UPPLUPEN RÄNTA (OM NÅGON), OCH KAN UNDER VISSA OMSTÄNDIGHETER VARA NOLL.
