## PART B - OTHER INFORMATION

- (iii) Estimate of total expenses related to admission to trading: SEK 24,000
- (iv) Market Making: Not Applicable

### 2. Interests of Natural and Legal Persons involved in the Issue/Offer

Save as discussed in the “*Subscription and Sale*” section of the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer

### 3. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

- (i) Reasons for the offer: As set out in the “Use of Proceeds” in the Base Prospectus

### 4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Call Redemption Amount of the Note issued at 10 % above par, is linked to the performance of the underlying basket of stocks.

The Call Performance is determined as the weighted average Performance of the underlying stocks, (including the 13 monthly fixings at the end of the maturity) multiplied with the Participation Rate (to be determined on the Issue Date and subject to a minimum of 100 %).

If the weighted average performance of the basket (including the 13 monthly fixings at the end of the maturity), is positive, the Notes will redeem at a price above par.

If the weighted average performance (including the 13 monthly fixings at the end of the maturity), is negative, the Notes will redeem at par.

The market value of the Notes during their term may fluctuate and if the Notes are sold in the secondary market prior to maturity they might have to be sold at a substantial loss. Investors should therefore be willing to hold the Notes to maturity. Investors cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently, or that the price of the Notes would reflect a theoretical or fair price.

If the Issuer is obliged to redeem the Notes early, due to change in Tax or Legal aspects prohibiting the Notes, or in the event of the Issuer defaulting on its debt, the Notes may be redeemed in accordance with the Conditions at their Early Redemption Amount (see item 32 of the Final Terms). If the Notes are redeemed early, there might be redeemed at a substantial loss. There is a risk that an investor may lose some or all of the value of its investment. Thus the partial principal protection does not apply, if the Notes are redeemed early.

Finally the redemption payment of the Note is dependent upon the Issuer being able to meet its obligation on the Maturity Date. If the Issuer is not able to meet its obligation, investor may lose part of or all of the invested amount.

## SUMMARY

Summaries are made up of disclosure requirements known as “Elements”. These Elements are numbered in Sections A – E (A.1 – E.7). This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

| D.2     | <b>Key risks specific to the Issuer</b> | <p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer’s control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, litigation and regulatory risk, insurance risk, pension risk and business risk;</li> <li>regulatory changes could materially affect the Issuer’s business;</li> <li>the Issuer faces increased capital and liquidity requirements as a result of the Basel III Framework;</li> <li>the implementation of a bank recovery and resolution directive or the taking any action under it could materially affect the value of any Notes;</li> </ul> |

There are certain factors which are material for the purpose of assessing the market risks associated with investing in the Notes, which include, without limitation, the following: an active secondary market in respect of the Notes may never be established or may illiquid and this would adversely affect the value at which an investor could sell its Notes, if an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding and the imposition of exchange controls could result in an investor not receiving payment on those Notes, the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a suitable investment for all investors, because the VP Systems Notes are dematerialised securities, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer, taxes and expenses may be payable by holders in connection with the Notes, there may be withholding under the EU Savings Directive, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes, the proposed financial transactions tax may apply in respect of certain dealings in Notes, the Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.</p> |

## AVSNITT A - SAMMANFATTNING

Sammanfattningar upprättas utifrån informationspunkter kallade "Punkter". Dessa punkter numreras i Avsnitt A till E (A.1 - E.7). Denna Sammanfattning innehåller alla de Punkter som ska ingå i en sammanfattning för Obligationerna och Emittenten. Eftersom vissa Punkter inte behöver behandlas här så kan det finnas luckor i nummerföljden av Punkterna. Även om en viss Punkt ska ingå i Sammanfattningen mot bakgrund av typen av värdepapper och emittent, kan det förhålla sig så att ingen information finns att återge under den Punkten. I dessa fall anges endast en kort beskrivning av Punkten och med en förklaring varför den inte är tillämplig.
