2. Interests of Natural and Legal Persons involved in the Issue/Offer

3. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

|-----|------------------------|---|
| (i) | Reasons for the offer: | As set out in the "Use of Proceeds" in the Base Prospectus. |
|-----|------------------------|---|

4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Notes are issued at 10% above par and are linked to the performance of the Basket of Underlying Equities.

The performance is determined as the weighted average performance of the Basket of Underlying Equities, (including the 7 monthly fixings at the end of the maturity) multiplied with the Participation Rate of INDICATIVELY 155% per cent (*to be determined no later than on the Issue Date, subject to a minimum of 140 per cent.*).

If the weighted average performance of the Basket of Underlying Equities (including the 7 monthly fixings at the end of the maturity), is positive, the Notes will redeem at a price above par.

If the weighted average performance (including the 7 monthly fixings at the end of the maturity), is negative, the Notes will redeem at par.

The market value of the Notes during their term may fluctuate and if the Notes are sold in the secondary market prior to maturity they might have to be sold at a substantial loss. Investors should therefore be willing to hold the Notes to maturity. Investors cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently, or that the price of the Notes would reflect a theoretical or fair price.

If the Issuer is obliged to redeem the Notes early, due to change in Tax or Legal aspects prohibiting the Notes, or in the event of the Issuer defaulting on its debt, the Notes may be redeemed in accordance with the Conditions at their Early Redemption Amount (see item 32 of the Final Terms). If the Notes are redeemed early, there might be redeemed at a substantial loss. There is a risk that an investor may lose some or all of the value of its investment. Thus the partial principal protection does not apply, if the Notes are redeemed early.

Finally the redemption payment of the Note is dependent upon the Issuer being able to meet its obligation on the Maturity Date. If the Issuer is not able to meet its obligation, investor may lose part of or all of the invested amount.

The Basket of Underlying Equities contain(s) the following underlying(s) (as set out in item 17 of the Final Terms). The description of the companies in the below is taken from Bloomberg. Additional information about the underlyings can be found on the official web-pages of the companies:

This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

No civil liability will attach to the Issuer in any such Member State solely on the basis of this summary, including any translation hereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus and the relevant Final Terms or, following the implementation of the relevant provisions of Directive 2010/73/EU in the relevant Member State, it does not provide, when read together with the other parts of the Base Prospectus and the relevant Final Terms, key information (as defined in Article 2.1(s) of the Prospectus Directive) in order to aid investors when considering whether to invest in the Notes.

	Statement of no material adverse change	There has been no significant change in the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole since 31 December 2018, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been prepared.	
	Description of significant changes to financial or trading position	On 9 January 2019, an action was filed in New York by an alleged holder of the Issuer's American Depositary Receipts, representing its ordinary shares, against the Issuer. The complaint seeks unspecified damages on behalf of a putative class of purchasers of the Issuer's American	

¹ By virtue of the Prospectus Supplement No. 8 dated 26 February 2019 changes have been made in the section "Selected historical key financial information" to reflect the publication of the consolidated audited financial statements as at and for the year ended 31 December 2018 (the "2018 Annual Report").

		Depository Receipts between 9 January 2014 and 23 October 2018. The Issuer intends to defend itself against the claims. On 7 February 2019, the Issuer was again placed under formal investigation (“mise en examen”) by an investigating judge at the Tribunal de Grande Instance de Paris in connection with an investigation into suspicion of money laundering related to certain transactions in the terminated portfolio of non-resident customers of the Issuer’s branch in Estonia in the period from 2007 to 2014. The investigation covers transactions amounting to around EUR 21.6 million. The Issuer has been ordered to post bail in the amount of EUR 10.8 million. On 3 March 2019, a class action lawsuit was filed against the Issuer in the City Court of Copenhagen. The Issuer has received an inquiry from the U.S. Securities and Exchange Commission which is also carrying out an investigation in relation to the Estonian case. Recent reports in the media have pointed to potential further legal actions being raised against the Issuer in connection with the Estonian case. On 14 March 2019, 169 separate cases were further initiated simultaneously in the City Court of Copenhagen concerning shareholder claims relating to the Estonian case with claims totalling approximately DKK 3.5 billion. These cases relate to alleged violations at the Issuer’s branch in Estonia of the rules on prevention of money laundering and the alleged failure to timely inform the financial markets of such violation. The timing of completion of the lawsuits (pending or threatened) and the investigations and the outcomes are uncertain. The Issuer intends to defend itself against the claims. Save for such lawsuit and investigations, there has been no material adverse change in the prospects of the Issuer since 31 December 2018, the last day of the financial period in respect of which the most recently audited financial statements of the Issuer have been prepared².
B.13	Recent events materially relevant to an evaluation of the Issuer’s solvency	Not Applicable - There are no recent events particular to the Issuer which are to a material extent relevant to the evaluation of the Issuer’s solvency.

- 3 By virtue of the Prospectus Supplement No. 1 dated 24 July 2018, the words "as at 30 September 2017," and "31 December 2016" in "Principal activities" have been deleted and the words "31 March 2018" is substituted therefore.

Section D - Risks

D.2	Key risks specific to the Issuer	In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. The factors include: • the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, litigation and regulatory risk, insurance risk, pension risk and business risk. • regulatory changes could materially affect the Issuer's business. • the Issuer faces increased capital and liquidity requirements as a result of the Basel III Framework. • the implementation of a bank recovery and resolution directive or the taking any action under it could materially affect the value of any Notes. • the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds; and • the Group may be affected by general economic and geopolitical conditions.
D.6	Key information on key risks specific to the Notes	<i>The Issuer believes that the factors summarised below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.</i> Notes may involve a high degree of risk. There are certain factors which are material for the purpose of assessing the market risks associated with investing in the Notes, which include, without limitation, the following: an active secondary market in respect of the Notes may never be established or may illiquid and this would adversely affect the value at which an investor could sell its Notes, if an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding and the imposition of exchange controls could result in an investor not receiving payment on those Notes, the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a

suitable investment for all investors, the recognition as eligible collateral for the Eurosystem and intra-day credit operations by the Eurosystem of New Global Notes is dependent upon satisfaction of the Eurosystem eligibility criteria at the relevant time, there is no taxation gross-up in respect of the Notes, taxes and expenses may be payable by holders in connection with the Notes, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes, the proposed financial transactions tax may apply in respect of certain dealings in Notes, reforms to benchmarks could have an effect on the Notes; the Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.

In addition, there are certain factors which are material for the purpose of assessing the risks relating to the structure of the Notes, which include, without limitation, the following: if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes and the value of Fixed Rate Notes may be affected by movements in market interest rates and investors in Capped Floating Rate Notes will not benefit from increases in reference rates which would apply to Variable Rate Notes with no cap and Variable Rate Notes may be volatile investments and where a Rate of Interest is determined in conjunction with a multiplier or other leverage factor, the effect of changes will be enhanced and interest is accumulated during the term of the Notes and is only paid on or about the Maturity Date and Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.

There are certain additional risks associated with Notes linked to the Reference Items: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Items to which the value of, or payments in respect of, the Notes relate. Fluctuations in the value and/or volatility of the Reference Item(s) may affect the value of the Notes. Investors may risk losing their entire investment. Investors will have no claim against any Reference Item. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. Market disruptions or other adjustment events may occur in respect of the Reference Items which may result in valuations and/or payments being delayed, the Notes may be subject to adjustment (including, without limitation, that the relevant Reference Item may be substituted) or the Notes may be redeemed early.

The Notes will represent an investment linked to the performance of the Reference Items and prospective investors should note that the return (if any) on their investment in the Notes will depend upon the performance of the Reference Items.

D.6	Risk Warning	THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO. INVESTORS MAY LOSE THE VALUE OF THEIR ENTIRE INVESTMENT, OR PART OF IT, AS THE CASE MAY BE.

Section E - Offer

E.2b	Reasons for offer and use of proceeds when different from making profit and/or hedging certain risks	The net proceeds from each issue of Notes will be applied by the Issuer to meet part of its general financing requirements.
E.3	Terms and conditions of the offer	This Issue of Notes is being offered in a Non-Exempt Offer in Sweden The issue price of the Notes is 110.00 per cent of their principal amount. The Issuer reserves the right to cancel, in the sole and absolute discretion of the issuer, the Issue of the Notes if (i) the Issuer receives subscriptions for Notes on an Aggregate Principal Amount of less than SEK 10,000,000.00 or (ii) the Issuer does not determine the Participation Rate to the lowest 140 per cent. Further, the Issuer has the right to cancel the offer and the subsequent issue of the Notes if in the sole and absolute discretion of the Issue, during the Offer Period, there is a domestic or international material change in interest levels and/or the volatility in the underlying equities, an economic, financial, political or market related material change, which in the sole and absolute discretion of the Issuer makes the offering of Notes inexpedient.
E.4	Interests material to the issue/ offer, including conflicting interests	Not Applicable - So far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. Commission of up to 2.00 per cent. of the Aggregate Principal Amount. Commission is not included in the Issue Price. Fees up to 1.00 per cent. per annum (i.e. total up to 3.00 per cent.) of the Aggregate Principal Amount are included in the Issue Price as a structuring fee to the Issuer.
E.7	Expenses charged to the investor	Commission of up to 2.00 per cent. of the Aggregate Principal Amount. Commission is not included in the Issue Price. Fees up to 1.00 per cent. per annum (i.e. total up to 3.00 per cent.) of the Aggregate Principal Amount are included in the Issue Price as a structuring fee to the Issuer.

	Uppgift om inga väsentliga negativa förändringar	Det har inte inträffat någon väsentlig förändring i Emittentens, eller Emittentens och dess dotterföretag tillsammans, finansiella situation eller ställning på marknaden efter den 31 december 2018, som utgör den sista dagen i den räkenskapsperiod för vilken den senaste räkenskapsrapporten för har framställts.	

1 Genom Prospekttilägg nummer 8 daterat 26 februari 2019 har ändringar gjorts till avsnittet "Utvald historisk finansiell information" för att återspegla publiceringen av den konsoliderade reviderade finansiella rapporten för året med slut den 31 december 2018 ("Årsredovisningen 2018").

	Beskrivning av väsentliga förändringar i finansiell situation eller ställning på marknaden	Den 9 januari, anhängiggjordes ett käromål mot emittenten i New York av en påstådd innehavare av emittentens amerikanska förvaringsbevis (En. American Depositary Receipts), vilka representerar emittentens aktier. Käromålet avser ett ospecificerat skadestånd till förmån för en putativ grupp av investerare i emittentens förlagsbevis under perioden 9 januari 2014 och 23 oktober 2018. Emittenten avser att försvara sig mot käromålet. Den 7 februari 2019 blev emittenten återigen placerad under formell utredning (Fr. mise en examen) av en domare vid Tribunal de Grande Instance de Paris i samband med en undersökning avseende misstänkt penningtvätt i förhållande till vissa transaktioner i nedstängda portfölj för utländska kunder i emittentens estniska filial under perioden 2007 till 2014. Undersökningen täcker transaktioner vilka uppgår till ett belopp om 21,6 miljoner euro. Emittenten har blivit beordrad att betala borgen motsvarande 10,8 miljoner euro. Den 3 mars 2019 anhängiggjordes en grupptalan mot Emittenten vid Köpenhamns byret. Emittenten har även mottagit en förfrågan från den amerikanska Securities and Exchange Commission som också undersöker Estlands ärendet. Den 14 mars 2019 inleddes 169 separata ärenden samtidigt vid Köpenhamns byret avseende aktieägaranspråk vilka sammantagna uppgår till cirka 3,5 miljarder danska kronor. Dessa ärenden gäller de påstådda överträdelserna av reglerna avsedda att förhindra penningtvätt i Emittentens estniska filial och det påstådda misslyckandet med att informera de finansiella marknaderna om sådana överträdelser i korrekt tid. Tidpunkten för fullbordandet av tvisterna (såväl pågående som hotande), undersökningarna samt deras resultat är okända. Emittenten har för avsikt att försvara sig i tvisterna. Med undantag för käromålen och undersökningarna har det inte inträffat någon väsentlig negativ förändring i Emittentens framtidsutsikter efter den 31 december 2018, som utgör den sista dagen i den räkenskapsperiod för vilken den senaste reviderade räkenskapsrapporten har framställts².

Avsnitt D - Risker

D.2	Huvudsakliga risker förknippade med Emittenten	Vid köp av Obligationer ikläder sig investerare risken förknippad med att Emittenten kan bli insolvent eller av annan anledning oförmögen att göra alla betalning av som förfaller under Obligationerna. Det finns ett brett spektrum av faktorer som, var för sig eller tillsammans, kan resultera i att Emittenten inte kan fullgöra sina betalningsförpliktelser
------------	---	---

		under Obligationerna. Det är inte möjligt att identifiera all sådana faktorer eller att fastställa vilka faktorer som är mest troliga att inträffa, eftersom Emittenten kan vara omvedveten om alla relevanta faktorer och vissa faktorer som Emittenten för närvarande bedömer som inte väsentliga, kan bli väsentliga på grund av inträffandet av händelser som ligger utom Emittentens kontroll. Emittenten har i detta Grundprospekt identifierat ett antal faktorer som kan väsentligt negativt påverka dess verksamhet och förmåga att erlägga betalning avseende Obligationerna. Dessa faktorer inkluderar: • Koncernen är exponerad mot ett antal risker, vilka kan kategoriseras som kreditrisk, marknadsrisk, likviditetsrisk, operationell risk, juridisk och näringsrätlig risk, försäkringsrisk, pensionsrisk och affärsrisk. • Regulatoriska förändringar kan väsentligt påverka Emittentens verksamhet. • Emittenten kommer att möta ökade kapital- och likviditetskrav som en följd av Basel III-ramverket. • Implementeringen av direktiv om inrättande av en ram för återhämtning och resolution av kreditinstitut och värdepappersföretag eller åtgärder vidtagna enligt detta direktiv kan betydande påverka värdet på Obligationerna. • Koncernen kan bli tvungen att betala ytterligare belopp insättningsgarantiplaner och liknande fonder; och • Koncernen kan påverkas av allmänna ekonomiska och geopolitiska förhållanden, vilket kan resultera i uteblivna vinster eller ökade förluster inom Koncernens verksamhet.
D.6	Nyckel information om huvudsakliga risker förknippade med Obligationerna	<i>Emittenten anser att faktorerna sammanfattande nedan representerar de huvudsakliga riskerna förknippade med att investera i Obligationerna, men Emittenten kan vara oförmögen att erlägga belopp avseende Obligationerna av andra skäl som inte behöver anses vara väsentliga av Emittenten på basis av den information som Emittenten för närvarande har tillgänglig eller som den för närvarande inte kan förutse.</i> Obligationerna kan vara förknippade med en hög grad av risk. Det finns vissa faktorer som är väsentliga för att kunna bedöma marknadsriskerna förknippade med att investera i Obligationerna, vilka inkluderar, utan begränsning, det följande: en aktiv andrahandsmarknad avseende Obligationerna kan komma att inte uppstå eller så kan den vara illikvid och detta kan ha en negativ påverkan värdet för vilket en investerare kan sälja sina Obligationer, om en investerare innehar Obligationer som inte är denominerade i valutan för investerarens hemland så kommer exponering ske mot förändringar i valutakurserna som negativt kan påverka värdet av innehavet och införandet av valutakontroller kan resultera i att en investerare inte får betalt för sina Obligationer, att marknadsvärdet för Obligationerna kommer att påverkas av ett antal faktorer oberoende av Emittentens kreditvärdighet, kreditvärdighetsbetyg tilldelade Emittenten kanske inte återspeglar alla risker förknippade

		med en investering i Obligationerna, Obligationerna kanske inte är en lämplig investering för alla investerare, eftersom Obligationer i , att skatter och avgifter kan komma att behöva betalas av investerare avseende Obligationerna, innehållande av källskatt enligt amerikansk lagstiftning (<i>U.S. Foreign Account Tax Compliance Act</i>) kan påverka betalningar avseende Obligationerna, innehållande under lagstiftningen om incitament för anställning (<i>Hiring Incentives to Restore Employment Act</i>) kan påverka betalningar för Obligationerna, de föreslagna finansiella transaktionerna kan tillämpas avseende viss handel med Obligationerna, förändringar av referensvärdena kan ha påverkan på Obligationerna: Villkoren för Obligationerna innehåller bestämmelser som tillåter att detta modifieras utan samtycke av samtliga investerare, att värdet av Obligationer kan påverkas negativt av en förändring i tillämplig rätt eller administrativ praxis, att Emittenten har emitterat säkerställda obligationer och om några relevanta anspråk avseende dessa säkerställda obligationer inte kan mötas ur tillgångsmassan eller likvider resulterande från denna, kommer varje återstående krav att därefter rangordnas lika med Emittentens förpliktelser under Obligationerna. Dessutom, det finns vissa faktorer som är väsentliga när det gäller bedömningen av riskerna avseende strukturen för Obligationerna, vilka inkluderar, bland annat, det följande: om fullgörandet av Emittentens förpliktelser under Obligationerna, blir olagligt, kan Emittenten lösa in Obligationerna och värdet för Obligationer med Fast Ränta kan påverkas av rörelser i marknadsräntor. Det finns vissa ytterligare risker förknippade med Obligationer relaterade till Referensfaktorn: Potentiella investerare i Obligationerna ska vidare vara införstådda med att riskerna med transaktioner som involverar Obligationerna och bör endast fatta ett investeringsbeslut efter noggrant övervägande, tillsammans med sina rådgivare, av lämpligheten av Obligationerna i ljuset av investerarens egna omständigheter, informationen i Grundprospektet och informationen om Referensfaktorn till vilken värdet för, eller betalningarna avseende Obligationerna är relaterade. Förändringar i värdet och/eller volatiliteten för Referensfaktor kan påverka Obligationernas värde. Investerare riskerar att förlora hela sin investering. Investerare kommer inte att ha några anspråk gentemot någon Referensfaktor. Emittentens hedgningsarrangemang kan påverka Obligationernas värde och det kan förekomma intressekonflikter avseende Obligationerna. Marknadsavbrott eller andra justeringshändelser kan inträffa avseende Referensfaktorn vilket kan resultera i att värderingar och/eller betalningar senareläggs, Obligationerna kan bli föremål för justering (inklusive, utan begränsning till, att den relevanta Referensfaktorn kan bytas ut) eller att Obligationerna löses in i förtid.
D.6	Riskvarning	BELOPPET SOM ERLÄGGS VID INLÖSEN AV OBLIGATIONERNA KAN VARA LÄGRE ÄN KAPITALBELOPPET FÖR OBLIGATIONERNA, TILLSAMMANS MED UPPLUPEN RÄNTA (OM NÅGON), OCH KAN UNDER VISSA OMSTÄNDIGHETER VARA NOLL. INVESTERARE KAN FÖRLORA VÄRDET AV DERAS HELA INVESTERING ELLER DEL DÄRAV, BEROENDE PÅ VAD SOM BLIR FALLET.

E.2b	Motiv till erbjudandet och användning av likviderna när annat än att göra vinst och/eller hedga vissa risker	Nettolikviderna från varje emission av Obligationer kommer att användas av Emittenten för att möta delar av dess allmänna finansieringsbehov.
E.3	Villkor för erbjudandet	Denna emission av Obligationer erbjuds i ett Icke-Undantaget Erbjudandet i Sweden. Emissionskursen för Obligationerna är 110,00 procent av dessas kapitalbelopp. Emittenten förbehåller sig rätten att enligt sin egna och absoluta bestämmanderätt ställa in Emissionen av Obligationerna om (i) Emittenten erhåller teckning av Obligationer om ett Sammanlagt Nominellt Belopp under SEK 10 000 000 eller (ii) Emittenten inte kan fastställa Deltagandegraden till minst 140 procent. Vidare så har Emittenten rätt att ställa in erbjudandet och följaktligen efterföljande emission av Obligationer enligt Emittentens egna och absoluta bestämmanderätt under Erbjudandeperioden om det föreligger eller uppkommer någon lokal eller internationell betydande förändring av räntenivåer och/eller volatilitet på de underliggande aktiemarknaderna, på de ekonomiska marknaderna, på de finansiella marknaderna, de politiska områdena eller marknadsrelaterade betydande förändringar, som enligt Emittentens egna och absoluta bestämmanderätt gör erbjudandet avseende Obligationerna inte praktiskt genomförbart.
E.4	Intressen väsentliga för emissionen/erbjudandet, inklusive intressekonflikter	Inte tillämpligt - Såvitt Emittenten känner till, har inte någon person som är involverad i emissionen av Obligationerna något intresse som är väsentligt för erbjudandet. Emittenten kan ta ut courtage om upp till 2,00 procent av Obligationernas nominella belopp som ska köpas av relevant investerare. Emittenten kommer att erhålla sammanlagda provisioner motsvarande upp till 1,00 procent per år (dvs. sammanlagt upp till 3,00 procent) av kapitalbeloppet för Obligationerna. Dessa provisioner är inkluderade i Emissionskursen.
E.7	Kostnader som debiteras investeraren	Emittenten kan ta ut courtage om upp till 2,00 procent av Obligationernas nominella belopp som ska köpas av relevant investerare. Emittenten kommer att erhålla sammanlagda provisioner motsvarande upp till 1,00 procent per år (dvs. sammanlagt upp till 3,00 procent) av kapitalbeloppet för Obligationerna. Dessa provisioner är inkluderade i Emissionskursen.
